

## The Digital Detection Series to ENVY

# NV5

### Big capabilities, small detector.

NV5 is the next generation of the ENVY Digital Detection series. NV5 has evolved from its predecessor NV500 - new firmware and improved hardware enables faster and more reliable detection, false alarm immunity and more - packaged in the sleek design you are familiar with.

#### NV5 has superior:

Results of testing (compared to NV500 and 476PRO)

- ▶ Catch performance
- ▶ Even detection, no dead zones
- ▶ Response to movements – slow & fast
- ▶ False alarm immunity
- ▶ Temperature compensation
- ▶ RF immunity

NV5 is easy to install (5-10 minutes) and has a conveniently small price.

#### NV5 is customizable and includes:

- ▶ 5 levels of sensitivity
- ▶ Pet resistance
- ▶ Adjustable Creep Zone – mirror add on is recommended for best performance

#### Compatible with:

- ▶ EVO
- ▶ Spectra
- ▶ Magellan
- ▶ 3rd party

### Paradox Partners tested the NV5, here is their feedback:

*"NV5 has advanced false alarm rejection capability. We didn't get any false alarms during our tests and have not received the complaint of false alarms from our customers."*

*"The improvements in creep zone range allow high sensitivity. NV5 detection is more capable and much more sensitive in our creep zone motion test. Even slow movements and squatting through endpoints were fully captured. Tailored creep zone operation appreciated."*

*"NV5 is a marvel. It's capable and sensitive fast detection ability will make our customers very happy."*

*"One thing that impressed me, it's that I was not able to walk even extremely slowly without being detected. I think it's a unique feature."*

### NV5 Marketing & Sales tools

Marketing and sales tools are available to support you for the launch of the NV5 in your market. To view the marketing and sales tools, click on the following link: [NV5 on paradox.com](http://NV5.on.paradox.com).

- ▶ NV5 Video
- ▶ NV5 Poster
- ▶ NV5 Roll-up
- ▶ NV5 Web banner
- ▶ NV5 Datasheet
- ▶ NV5 Instruction manual
- ▶ NV5 Sales tool

### NV5 Samples

NV5 samples will be sent to you in the beginning of the new year. Please see this as a token of appreciation for our partnership and a tool to support you in introducing the NV5 to your key customers and your market.

Wishing you all a successful year ahead and many more to come.

Best Wishes,

Jordan Peles
